

Important considerations

Please rate which of these you value the most: 1 (being the most important) to 4

Cosmetic (meaning : - looks)
Function (meaning : - eating, speaking, chewing, etc....)
Comfort (meaning : - having no pain during or after the appointment)
Longevity (meaning : - long lasting results)

Please circle which of these are barriers that would stop you from moving forward with your proposed treatment:

Fear Budget Time No trust

What is the most important quality for you in your relationship with your dentist?

Are you the type of person who likes a lot of detailed information, or do you prefer more bottom line information?

Are you currently having any dental problems which you would like addressed immediately?

What is your opinion about evolving dental procedures, such as dental implants?

Do you have any concerns about crowding teeth?
